

How you can join in!

Join the alliance to show that you support us.

If you join the alliance, we will write to you sometimes letting you know what we are doing and how you can help.

Become a representative for us.

Help tell other children and young people about us, by putting up posters, giving out leaflets and asking people to join the alliance.

Join our group of children and young people campaigners.

The children and young people in the campaign group will agree together how they will campaign with the alliance. But some of the things they might do are: meeting people in the government, telling lots of people about the campaign, writing to newspapers to explain about why they think the law should change.

The Children are Unbeatable! Alliance is a huge group of more than 400 organisations and many adults who are campaigning for equal protection from violence for children. The children in the new Children's Campaign will work alongside adults in the Alliance.

Why we think the law should change...

★ Hitting children to punish them can be painful and embarrassing.

★ It's against the law to hit adults. We think children should be equally protected.

★ Children have human rights, including the right not to be hit.

★ Lots of other countries have already made it illegal to hit children.

★ The United Nations and the Council of Europe say that it should be illegal to hit children.

Why we want you to help...

We want children and young people to join us to help change the law, because:

★ The law is about children and young people.

★ We think that people in power should listen to what children and young people think.

★ We believe that children and young people can change things and make a difference.

We want to help children and young people have a say in the issues that affect them. **We will always treat you with respect and listen to what you have to say.**

Stop smacking us!

because Children are Unbeatable!

In the UK it is legal for parents and some other people to hit children.

The Children are Unbeatable! Alliance want to **change the law** so that nobody will be allowed to hurt children.... and **we want you to work with us!**
